EXPERIENCE

UI/UX Designer

Chaos

Nov 2021 - Present - Karlsruhe

- Led user research and usability testing sessions, uncovering key pain points and validating design decisions through real user feedback.
- Designed interaction flows, prototypes, and feature experiences for various Chaos products, improving usability and contributing to a UMUX score above 75.
- Partnered closely with product managers and developers in agile sprints to deliver consistent, user-centered solutions from concept to release.

UX Developer

Osapiens

Sep 2020 - Oct 2021 - Mannheim

- Created interactive prototypes in Adobe XD and delivered detailed specs and assets to developers.
- Worked hands-on with ReactJS to implement and refine UI features, bridging design and development.

UX DESIGNER (Working Student)

SAP

Jun 2018 - Apr 2020 - Walldorf

- Collaborated with PMs and developers to ensure adherence to SAP Fiori design guidelines.
- Designed and produced assets for web and print, coordinating directly with vendors for high-quality outcomes.

SOFTWARE DEVELOPER

NTT DATA

Sept 2010 - jul 2012 - 2 years, Paris

- Improved functionality and user experience across web and desktop applications, developed new modules in Agile sprints, and collaborated with Product Owners on task management and technical documentation.
